Chapter 1

1-1.	Gulf of Mexico Outer Continental Shelf Planning Areas and Locations of Major Cities.	3
------	---	---

Chapter 2

2-1.	Location and Lease Status of Blocks Affected by Alternative B - The Proposed Actions Excluding the Unleased Blocks Near the Biologically Sensitive Topographic Features (West Louisiana and East Texas).....	4
2-2.	Location and Lease Status of Blocks Affected by Alternative B - The Proposed Actions Excluding the Unleased Blocks Near the Biologically Sensitive Topographic Features (East Louisiana).	5
2-3.	Blocks to be Protected by Proposed Live Bottom (Pinnacle Trend) Stipulation.	6
2-4.	Military Warning Areas in the Gulf of Mexico.	7
2-5.	Location and Lease Status of Blocks Affected by Alternative C - The Proposed Actions Excluding the Unleased Blocks within 15 Miles of the Baldwin County, Alabama Coast.	8
2-6.	Location and Lease Status of Blocks Affected by Alternative B - The Proposed Actions Excluding the Unleased Blocks Near the Biologically Sensitive Topographic Features (South Texas).....	9
2-7.	Location and Lease Status of Blocks Affected by Alternative B - The Proposed Actions Excluding the Unleased Blocks Near the Biologically Sensitive Topographic Features (Central Texas).	10

Chapter 3

3-1.	Status of Ozone Attainment in the Coastal Counties and Parishes of the Central and Western Gulf of Mexico.	11
3-2.	Estuarine Systems of the Gulf of Mexico.	12
3-3.	Multibeam Bathymetric Image of "Double Top" (top) and "Alabama Alps" (bottom) Pinnacle Features Located in the Main Pass Block along the Mississippi/Alabama Shelf (CSA and Texas A&M University, GERG, 2001).....	13
3-4.	Location of Topographic Features in the Gulf of Mexico.	14
3-5.	Multibeam Bathymetric Images of the East (top) and West (bottom) Flower Garden Banks Illustrating the Topographic Formation of Each Reef System (C&C Technologies Inc., 1996).	15
3-6.	Multibeam Bathymetric Topographic Image of Stetson Bank Showing the Vertical Orientation of this Midshelf Topographic Formation (Gardner, 2000).	16
3-7.	Sonner Bank and Protective Zones as Proposed by the Proposed Topographic Features Stipulation.....	17
3-8.	Location of Known Chemosynthetic Communities in the Gulf of Mexico.	18
3-9.	Areas Closed to Longline Fishing in the Gulf of Mexico.	19
3-10.	Interstates, Airports, and Railways in the Gulf of Mexico.	20
3-11.	Major Ports and Domestic Waterways in the Gulf of Mexico.	21
3-12.	OCS-Related Service Bases in the Gulf of Mexico.	22
3-13.	OCS Pipeline Shore Facilities in the Gulf of Mexico.	23
3-14.	OCS Barging Platforms and Terminals in the Gulf of Mexico.....	24
3-15.	Areas with 50 Percent or Greater Minority Populations.	25
3-16.	Areas with 50 Percent or More Households with Annual Incomes of Less Than \$15,000.	26

Chapter 4

4-1.	Gulf of Mexico Offshore and Coastal Subareas.	27
4-2.	Types of Deepwater Production Structures.	28
4-3.	Produced Water Extracted in the Gulf of Mexico.	29
4-4.	Volume of OCS Oil Barged from 1985 to 2000.	30
4-5.	Location of Identified Sand Resource Sites Offshore Alabama.	31
4-6.	Study Area for Synthesis of Hard Mineral Resources on the Florida Panhandle Shelf.	32
4-7.	Probability that a Particular Number of Offshore Spills $\geq 1,000$ bbl Occurring as a Result of OCS Program Operations Gulfwide during the Years 2003-2042.	33
4-8.	Probability of a Particular Number of Offshore Spills $\geq 1,000$ bbl Occurring as a Result of OCS Program Operations in the Central Planning Area during the Years 2003-2042.	34
4-9.	Probability of a Particular Number of Offshore Spills $\geq 1,000$ bbl Occurring as a Result of OCS Program Operations in the Western Planning Area during the Years 2003-2042.	35
4-10.	Probability (percent chance) of a Particular Number of Offshore Spills $\geq 1,000$ bbl Occurring as a Result of Either Facility or Pipeline Operations Related to a CPA Proposed Action.	36
4-11.	Probability (percent chance) of a Particular Number of Offshore Spills $\geq 1,000$ bbl Occurring as a Result of Either Facility or Pipeline Operations Related to a WPA Proposed Action.	36
4-12.	Comparison of Spill Frequency and Spill Volume for Past OCS Spills by Size Category (1971-1999 MMS OCS spill database (Anderson and La Belle, 2000).	37
4-13.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days the Shoreline (counties and parishes) as a Result of a Proposed Action (only counties and parishes with greater than a 0.5% risk of contact within 10 days are shown).	38
4-14.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days State Offshore Waters or Recreational Beaches as a Result of a CPA or WPA Proposed Action.	39
4-15.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days the Surface Waters Overlying and Surrounding Offshore Environmental Features or Boundary Targets as a Result of a CPA or WPA Proposed Action.	40
4-16.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Marine Mammal Habitats as a Result of a CPA or WPA Proposed Action.	41
4-17.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Manatee Habitats as a Result of a CPA or WPA Proposed Action.	42
4-18.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Known Locations of Gulf Sturgeon as a Result of a CPA or WPA Proposed Action.	42
4-19.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Sea Turtle Habitats as a Result of a CPA or WPA Proposed Action.	43
4-20.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Endangered Beach Mice Habitats as a Result of a CPA or WPA Proposed Action.	44
4-21.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Snowy Plover Habitat as a Result of a CPA or WPA Proposed Action.	45
4-22.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Piping Plover Habitat as a Result of a CPA or WPA Proposed Action.	45
4-23.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Whooping Crane Habitat as a Result of a CPA or WPA Proposed Action.	45
4-24.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Brown Pelican Habitat as a Result of a CPA or WPA Proposed Action.	46
4-25.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Bald Eagle Habitat as a Result of a CPA or WPA Proposed Action.	46
4-26.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Raptor Bird Habitats as a Result of a CPA or WPA Proposed Action.	46
4-27.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Gull, Terns and Charadriid Allies Habitats as a Result of a CPA or WPA Proposed Action.	47

4-28.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Charadriid Shoreline Bird Habitats as a Result of a CPA or WPA Proposed Action.....	47
4-29.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Diving Bird Habitats as a Result of a CPA or WPA Proposed Action.	47
4-30.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Wading Bird Habitats as a Result of a CPA or WPA Proposed Action.	48
4-31.	Probabilities of Oil Spills ($\geq 1,000$ bbl) Occurring and Contacting within 10 Days Waterfowl Habitats as a Result of a CPA or WPA Proposed Action.	48
4-32.	Major Oil Pipeline Landfalls Areas Developed for OSRA.....	49
4-33.	Conventional Versus Dual Gradient Drilling (DGD).	50

Chapter 9

9-1.	Geopotential Anomaly (dynamic m) of the Sea Surface Relative to the 1000-db Surface, Constructed from <i>Hidalgo</i> Cruise 62-H3 Data Collected February to March 1962.	51
9-2.	Temperature vs. Salinity, Temperature vs. Depth, and Salinity vs. Depth Based on All Data Collected during <i>Hidalgo</i> Cruise 62-H3, February to March 1962.	52
9-3.	Temperature vs. Salinity, Temperature vs. Depth, and Salinity vs. Depth for Two Stations Made in Early May 1993 Over the Continental Slope Off Texas.	53
9-4.	Location of Artificial Reef Planning Areas in the Gulf of Mexico.....	54
9-5.	OCS Platform Distribution across the Gulf of Mexico.....	55
9-6.	OCS Platforms Installed and Removed from 1942 to 1999.....	56
9-7.	Locations of Rigs-to-Reefs in the Gulf of Mexico.	57
